08 November 2017

SNOW PLAN

Below is the diagram detailing the routes to be cleared by Parish volunteers:

Cont'd...

Snow Plan details continued...

Strategic Routes:

The B3990 is a strategic route for the area and will be cleared by Dorset County Council.

This will be treated when conditions are damp and road temperatures are forecast near freezing or before snow. The A35 west of Bere Regis is treated by the Highways Agency.

Community Link

The route from the B3390 to Briantspuddle Cross and then north to rejoin the B3390 is designated a community link. Dorset County Council will also salt this route when snow is forecast as part of it's plan to connect more isolated communities to the main salted network. After snow has fallen they will plough and continue to salt/grit the road.

During severe weather this route can be supplemented with resources available to the Parish Council.

Resting Places for Snow Plough:

Waddock Cross
